PROJECT NAME	Cafeteria Menu Display

PROBLEM STATEMENT

The Cafeteria Menu Display Portal will enhance the management, publication, and accessibility of daily and weekly cafeteria menus across an organization. Administrators will be able to create, update, and publish menus efficiently, ensuring employees have real-time access to meal options. The portal will streamline the approval process for new menus, automate menu scheduling, and maintain a historical record for future reference. Employees can easily view upcoming meals, dietary options, and special offerings, improving cafeteria engagement and meal planning. By centralizing menu management, the platform will reduce manual effort, minimize errors, and enhance the overall dining experience for employees.

OBJECTIVE:

Automate the creation, publication, and management of Cafeteria menu, ensuring real-time update on available meal options and schedules.provide

Actionable insights on menu preferences and trends, notify administrators about required updates or special meal requests, and generate report to optimize meal planning and enhance the dining experience.
